There have been huge changes in the financing market, which will have a substantial impact on projects and investments alike.

Will we forgo our personal space and crowd around shared desks? Will HR or finance call the shots? Do businesses know what they need at all? How can old properties compete with new ones? What kind of changes and flexibility will tenants require, or already do? Will the vacancy rate rise further, putting pressure on rents? Will the segment split to soaring and tanking sub-markets? What awaits the biggest asset category in Hungary?
